Release Contained: Yes

Type of Incident: Vehicle Accident

Description of Released Contaminant: 10 gallons of gasoline and 18.2 gallons of diesel fuel

Volume Spilled: 28.20 gallons

Ag Related: No

EPA Extremely Hazardous Substance: Unknown

Reported to NRC: Unknown

Cause of Incident:

Fuel truck was traveling down the road and pulled over to let another vehicle go by - when started again and no shoulder on the road front right tire went down to lower elevation and the weight in the truck shifted and truck rolled into the ditch.

Risk Evaluation:

no immediate health risks.

of Fatalities: 0

of Injuries: 0

Affected Medium: 02 - water

Potential Environmental Impacts:

No likely environmental risks as spill was almost completely cleaned up within hours of the spill. A minimal amount of gallons was spilled.

Action Taken or Planned:

Rural Fire department responded and put out containment items around the truck even though there was no visible spill at the time. Once the truck was removed you could see some fluid floating on the surface of the water. Earthmovers was contacted to respond and they put out pads to collect all fluid. They pushed away a few cat tails to insure that all fluid was contained on the surface and soaked up by the pads.

Wastes Disposal Location: Earthmovers will dispose of all collected waste.

Agencies Involved: Local Fire Department, Local Law Enforcement
